

PUBLIC FORUM: Child Care Quality Assurance Systems

A public forum for the long day care, family day care and the outside school hours care sector

There are proposed changes to the existing Child Care Quality Assurance Systems, and we would like to hear what you have to say!

A coalition of children's service organisations have come together to host a public forum which will focus on the upcoming changes to the existing Child Care Quality Assurance Systems and the proposal for an integrated system.

In his press release the Minister for Communities, Families and Indigenous Affairs advised of consultation with the children's services sector. To date no information regarding these proposed con-

sultations have been released. So here is your chance to tell us what you think.

We are interested to hear from a broad range of people include staff working directly with children, parents, directors/co-ordinators and management representatives.

On the night you will have an opportunity to hear from a range of prominent speakers. Suggestions raised on the night will be collated and forward to the Minister for consideration.
